Chairman's Update

As announced on 28 April, 2015, Rubicon received a requisition from Mr Angus Mason, representing Cashel Partners Fund 1 Pte Ltd ("Cashel"), a holder of 8.21% of the shares in the Company, for a general meeting at which time resolutions will be put to shareholders to remove Mr John Pettigrew and Mr Russell Pillemer as Directors of Rubicon and to replace them with nominees of their own.

As previously noted, the Company believes this is an opportunistic endeavour by Cashel and its associates to secure control of Rubicon at a time of improving performance and profitability, as previously disclosed to the market, evidencing the success of our strategy and ability to grow revenue, whilst cutting costs and enhancing our business mix and profile.

Since our last update to the market on 1 May, 2015 our support amongst the shareholder community has increased from 35% to in excess of 47%, including the Company's five largest shareholders excluding Cashel.

We will continue to progress discussions and garner the support of other shareholders who we expect will also support the company with the aim of securing support of more than 50%, which encouragingly means this action has no prospect of succeeding.
