MEET THE LEADERSHIP TEAM

Marek Danyluk
Managing Partner, CEO

Marek is CEO and Managing Partner of Space Executive, which he founded in 2015. With over 20 years' recruitment experience Marek has placed leadership roles in all industries, working mandates across the globe. Marek also runs a Venture Capital firm and sits on the board for a number of startup and VC-backed businesses.

Ben Horn
Partner, Managing Director

Ben joined Space Executive in 2015 as a Partner and Global Board Member and leads the London office as Managing Director. He specialises in C-Suite and Leadership hiring across Commercial businesses.

JOB FUNCTIONS

Leadership and General Management

Space Executive is focused on finding the best possible leaders in the market for our clients. We are constantly evaluating, targeting, and engaging with senior leadership and executive talent who are typically on an accelerated career path, or with a demonstrable career track record. We strongly believe in providing opportunities around the globe for both current and future business champions.

Chief Operating Officer and Governance

Corporate Governance functions have always been a critical consideration for global senior management teams as they impact companies' ability to operate in any given market. We have an excellent track record in providing exceptional governance talent, that help a company's ability to navigate complex cross-border legal, compliance and risk-related issues associated with business operations across all sectors. We are sector agnostic, operating globally at the more senior end of the market.

Technology, Transformation and Consulting

Technology is the driving force behind innovation and evolution across all industries. In this constantly evolving market, our team is dedicated to being at the forefront of cutting-edge technology-aligned hiring. Our team is optimised to provide technical leadership across the full software development lifecycle in both financial and commercial ecosystems. Our clients range from more traditional organisations going through large-scale digital and data-driven transformations, to disruptive technology-led firms and startups who are at the front line of innovation, product design and software engineering.

Venture Capital, Private Equity and Portfolio of Investments

Our clients are amongst the fastest growing companies in the world: they are VC & growth equity-backed; they are publicly traded & privately held companies transforming to disrupt their respective markets. We work with investors, executive boards, and leadership teams, who value and respect Space Executive for our consultative advice, diligent market insights and reporting, utilisation of market-leading technology and our global reach. Our demonstrable expertise in hiring executives and non-executives who understand innovation and disruption and can deliver growth and transformation, further sets us apart.

Banking and Insurance

Innovation in the insurance industry takes many forms, be that product innovation, value-add services, digitalisation, automation, or disruptive insurtech. Space Executive is at the forefront of these innovations, partnering with established insurance and reinsurance players to evolve their business offerings and processes, as well as insurtech businesses looking to scale their offering or partner with global corporations. Our Global Banking and Capital Markets business unit is uniquely focused on M&A, ECM, DCM, Research, Structured, Leveraged and Acquisition Finance mandates.

INDUSTRIES

Consumer

Our consumer team is focused on hiring the best leaders in the market for our clients, across food and beverage, wine & spirits, luxury, retail, travel and hospitality, FMCG, professional services, media and telecommunications.

Technology

Our technology team is optimised to provide technical leadership across the full software development lifecycle in both financial and commercial ecosystems. Clients range from traditional organisations going through large-scale digital and data-driven transformations, to disruptive technology-led firms and startups who are at the frontline of innovation, product design and software engineering.

Healthcare

Our healthcare team support a range of C-Suite roles across the healthcare and healthtech industries. Clients range from large established organisations to startups who are innovating healthcare design, technology and development. We provide highly specialised candidates for general management and niche position roles.

Financial Services

Our financial services team focuses on all leadership roles across the broader Financial Service ecosystem within all areas of traditional banking, asset management, fintech, payments and digital banking.

Venture Capital, Private Equity and Startups

Our startup team focuses on working with high-growth VC and PE-backed businesses, as well as directly with the funds themselves. We work closely with founders and portfolio management teams and specialise in identifying candidates who have the "startup" mindset for critical senior leadership positions. Specifically, on the fund side, we cover analyst to partner level hires on both the investment and portfolio sides.

Legal

Our legal team is the preferred executive search partner for Fortune 500 MNCs, PE and VCs, Startups, FinTechs, Financial Services Companies, Conglomerates, and international law firms. We have a successful track record in hiring legal professionals at the mid to senior level and have been involved in many high-profile hires across the APAC region.

Insurance

Space Executive is at the forefront of Insurance innovation. We partner with established insurance and reinsurance players to develop their business offerings and processes, and insurtech businesses looking to scale their offering or partner with global corporations.

Consultancy

With the legacy of our change, strategy and technology verticals, our consulting and professional services team are focused on hiring management to partner level individuals for the consulting industry globally.

TRUSTED RECRUITMENT PARTNER

“ Space Executive were determined and professional when they helped us fill a key role in our company with lightning efficiency. We couldn't have done it without them! Grateful and excited to keep working with them as we scale. ”
